## Sponsorship & Partnership Proposal

*HIV/AIDS Prevention, Care, Awareness & Community Empowerment*

Uganda | 2025

### 1. Executive Summary

AIDS APAANA FOUNDATION is a community-based organization in Uganda dedicated to combating the HIV/AIDS epidemic through grassroots prevention, education, care, and empowerment. We work directly with vulnerable populations including youth, women, orphans, and HIV-positive individuals to reduce new infections, reduce stigma, and improve quality of life.

We are seeking sponsorship and partnership support to expand our programs, reach more beneficiaries, and build sustainable community health systems. Your investment will directly save and transform lives in some of Uganda's most underserved communities.

### 2. The Problem We Address

HIV/AIDS remains a significant public health challenge in Uganda:

- Uganda has approximately 1.4 million people living with HIV (PLHIV)
- Many communities lack access to basic HIV testing, prevention education, and care support
- Stigma and discrimination continue to prevent people from seeking help
- Orphans and children affected by AIDS remain among the most vulnerable
- Women and girls face disproportionately higher infection rates

Without sustained community-level response, progress made in reducing infections risks being reversed.
